Cs36i saddlebag with lockable click system

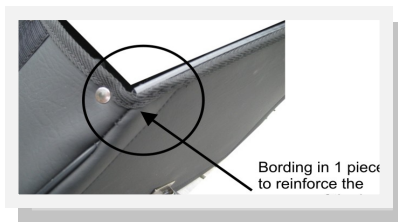

**Dimensions :** 45cm x 31x 17

**Capacity :** 42L/set

**Material :** waterproof synthetic leather,  
PE reinforcements at the inside, bottom is  
doubled with heat resistant textile,  
Backside of the bags in laminated HDPE.

hidden quick release buckles

One of the weak points of a bag are the corners. Therefore, they are reinforced. reinforced corners

Discrete "sliding" grips

To keep the shape, these bags are completely reinforced at the inside !

Side flaps with velcro give maximum protection against the rain.

Flap has doubled edges for a luxury look.

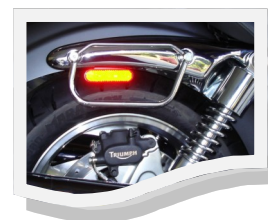

Cs4 saddlebags are standard supplied with a pair of strong, lockable Click systems. This click system can be locked with a key. The lock is at the inside of the bag.

To mount the clicks system, 3 holes of 0,5 mm and 1 hole of 20mm have to be drilled.

A Cs4 saddlebag sets contains :

saddlebags + lockable clicks system + saddlebag holders

When you choose the saddlebag , you prefer, be sure that :

- The saddlebag doesn't touch the wipers;
- The saddlebag doesn't touch the shock absorbers;
- There is at least 8 cm between bag and exhausts.
